Expansive Fabric Options by Sunbrella[®] and Recasens[®]

Fully Enclosed Cassette Casing

Automated Wind Retraction

Optional Dimmable LED Lighting

Stylish. Intelligent. Patio Awnings

INDUSTRY-LEADING MOTORIZATION

Sol-Lux awnings utilize Somfy® line voltage and battery-powered RTS motors. Control your awning and LED lighting with the stylish Somfy Situo remote. Or use Somfy's Tahoma hub for advanced control through the Tahoma app or integrated into home automation systems.

INTEGRATED SENSORS

Sol-Lux awnings are designed with a motion sensor integrated into the awning leadrail. The sensor detects wind and automatically retracts the awning to protect it from damage.

DESIGNED FOR THE OUTDOORS

6060 grade aluminum extrusions and zinc plated components will withstand extreme exposure with minimal degradation. Our acrylic fabrics are marine grade, tested against the harshest elements.

About Sol-Lux

Sol-Lux awnings are custom made in Broomfield, Colorado. As a subsidiary of Carefree of Colorado, Sol-Lux brings over 50 years of awning innovation, quality and value to the North American residential market.
