

SOL-LUX[®]

Stylish.
Intelligent.
**Outdoor
Shade.**

**Beautifully engineered shading solutions
for modern living.**

Sol-Lux designs premium outdoor retractable shading solutions that help homeowners stay cooler, protect their spaces, and enjoy the outdoors more comfortably.

Backed by over 50 years of engineering expertise, our solutions blend modern design with intelligent performance – custom-made for your home.

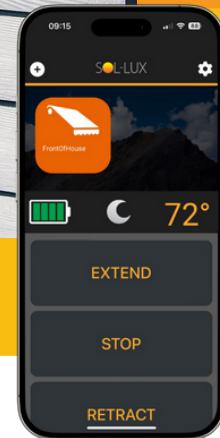

Backed by a 5-year warranty, EOS delivers comfort, curb appeal, and confidence - automatically.

Supports window widths between 39" - 120" in 1/2" increments.

Select from 180+ cassette colors and 70+ Sunbrella® fabric options to complement your home's exterior.

Smarter Shade Starts at the Window

EOS is a first-of-its-kind autonomous window awning that stops heat and glare *before* it enters your home. Unlike interior shades, EOS works outside the window – where it's most effective – helping keep rooms cooler while preserving your view.

Reduces Heat & Glare

Blocks up to **94% of sunlight** and can lower indoor temperatures by as much as **15°F**, helping reduce cooling costs.

Autonomous Operation*

Built-in sun, wind, and temperature sensors automatically extend and retract the awning throughout the day.

Solar-Powered Convenience

Integrated solar charging eliminates wiring and the need for an electrician.

Clear Views, Modern Style

Enjoy natural light without sacrificing comfort or aesthetics.

*The **Sol-Lux App** puts users in control. Extend, retract, create schedules, set vacation mode, and adjust sensor sensitivity levels for a personalized experience.

Expand Your Outdoor Living Space

Mirage and Freedom patio awnings transform patios, decks, and outdoor gathering spaces into cool, comfortable retreats.

By blocking intense sun and reducing heat gain, these retractable awnings let you relax, entertain, and enjoy your outdoor spaces longer – while maintaining a clean, modern look.

FREEDOM | Solar-Panel Installation

MIRAGE | AC Powered with LED Lighting

Reduces heat-gain by up to 77%

Dimmable LED lighting —warm or cool— provides ambiance day or night

Integrated motion sensor automatically retracts during high winds

Expansive selection of **Sunbrella®** & **Recasens®** premium marine-grade acrylic fabrics

Fully enclosed cassette protects the awning when not in use

	MIRAGE	FREEDOM
Width Range	12'4" - 21' Width	8' - 14'8" Width

Comfort, Privacy, and Protection – On Demand

MiraSol drop screens extend the comfort of your home into the outdoors. Designed to reduce glare, heat, wind, and protect against insects while maintaining visibility, MiraSol helps create usable outdoor spaces you'll enjoy throughout the year.

Easy, Everyday Control

Handheld remote operation for effortless shade adjustment.

Automatic Comfort

Optional sun and wind sensors automatically adjust shading.

Smart Home & App Control

Add app and voice control for smart-home integration.

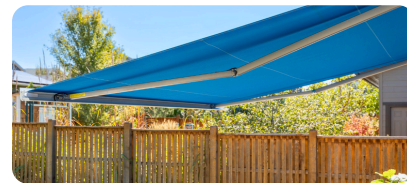

Simple Control. Simple Operation.

Sol-Lux patio awnings and drop screens are powered by **Somfy®** motors and works with **Bond** for smooth reliable performance and intuitive control.

Upgrade the Way You Live Outdoors

Sol-Lux outdoor shading solutions are custom designed to fit your home, your lifestyle, and your environment. From intelligent window shading to expansive patio coverage, there's a solution designed to make your spaces more comfortable and enjoyable – year-round.
