

## QUICK START APP CONNECT GUIDE

For detailed information on the installation and operation of the Sol-Lux Eos Awning refer to the following publications available at [www.sol-lux.com](http://www.sol-lux.com):

070016-201 Sol-Lux Eos Owner's Manual

070016-210 Sol-Lux Mobile App Manual

### DOWNLOAD THE MOBILE APP

**NOTE:** Do not attempt to pair to the awning directly through your mobile device. Pairing must be done through the app.

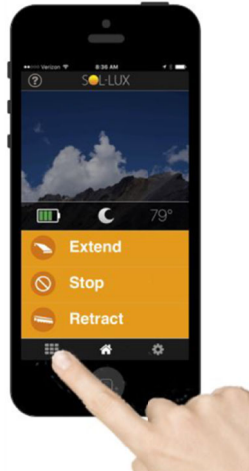

1. Download the mobile app from the App Store or Google Play store
2. Ensure Bluetooth is turned ON in the settings page for your mobile device.
3. When the app is opened for the first time, your device will request permission to access Bluetooth. You must grant access to enable the app to work with your awning. On Apple (ios) devices, once you have granted Bluetooth access, you must close then open the app for the granted permissions to be recognized.

### CLAIM YOUR AWNING

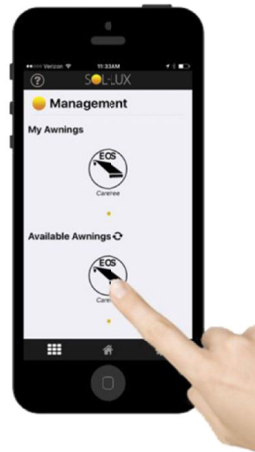

**1** Open the App

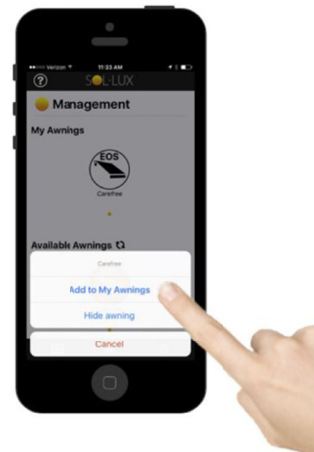

**2** Go to the Awning Management Screen

**3** Select Awning

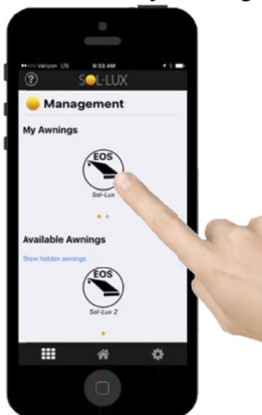

**4** Tap "Add to My Awnings"

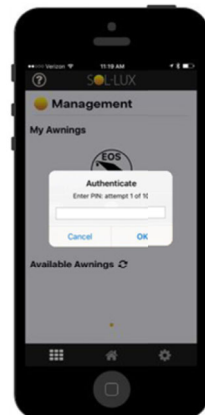

### PAIR YOUR AWNING

**1** Select the Awning under my Awnings

**2** Enter Pin

The awning will be in open pairing mode for 15 minutes after installation and will not require a security PIN (Personal Identification Number).

After 15 minutes or when adding an additional mobile device you must use the awning's PIN.

The PIN is the last 4 digits of the awning's serial number that is found on the label affixed to the back of either the owner's manual; the awning itself; by logging into your Sol-Lux account online; or, by contacting Sol-Lux customer service.

After pairing, the awning can be operated with the mobile app.
